Graduation, Employment, and Retention Rates

Bryan University is accredited by the Accrediting Commission of Career Schools and Colleges (ACCSC), an accrediting agency recognized by the United States Department of Education. Bryan University calculates and reports graduation and employment rates to the Accrediting Commission of Career Schools and Colleges (ACCSC) annually. The following information is taken from the 2021 ACCSC Annual Report, submitted in 10/2021.

*Stenography (DE)	12/2016	11/2017	10%	100%	

Graduation rates are calculated by taking the number of starts minus withdrawals divided by total starts (excluding students unavailable for graduation due to death, military duty, incarceration or medical reason).

Employment rates are calculated by taking the number of graduates employed in the field of study divided by the total number of graduates (excluding graduates unavailable for employment due to further education, death, military duty, incarceration or medical reason).

Retention Rates are calculated by taking the denominator = students who began school during the reporting period plus transfer from another program minus transfers to another program. Numerator = Number of retained students still in program. (Exclude from the calculation the following categories: active military service deployment, death, incarceration)

*Program(s) are discontinued.
